- Installation brackets available for top (L-brackets) and wall (U-brackets) mount applications. See illustrations on page 18.
- Boards are 1/2" thick and are available in a 4" or 6" heights up to 110" wide\*. Box valances can be installed side by side for applications that require wider widths.  
*\*Check current freight width restrictions when ordering box valances wider than 98".*
- Can be ordered with or without valance returns. Returns are available in 3 1/2", 4", 4 1/2" or 5" sizes.
- Inside mount shades are not available to order with returns and will have a 1/8" deduction applied to the overall board width.
- Outside mount shades can be ordered with or without returns and will not have any deductions applied. *See below for ordering recommendation when ordering with returns.*
- When adding valance returns, the Box Valance **must be ordered at least 1 3/8" wider** than the corresponding shade. This width ensures that the valance will fit over the shade; it accommodates the extra width of the returns and hinges. See illustration on page 18.

# WARNING ON CORDED PRODUCTS

Ensuring child safety is paramount when it comes to window treatments.

When ordering products with continuous cord loops, there is the risk of strangulation when cord tension devices are not properly installed. **ALWAYS** install cord tension devices and keep them intact for the full life of the shade.

To mitigate the risk of child strangulation, choose cordless window coverings, which eliminate the danger of dangling cords.

## ⚠️ WARNING

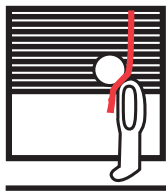

### Window Blind Cord Strangulation Risk

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products with inaccessible cords.

ANSI/WCMA A100.1-2022

## ⚠️ ADVERTENCIA

### Riesgo de Estrangulamiento en Cuerdas de Persianas

Las persianas con un dispositivo tensor suelto o dañado o con una cuerda retráctable que no se ajusta completamente representan un riesgo de estrangulación para los niños. Para evitar un posible riesgo de estrangulamiento, considere comprar productos inalámbricos o productos con cuerdas inaccesibles.
