Care & Cleaning

HORIZONTAL BLINDS

Regular cleaning with a feather duster or soft, clean cloth is typically all that is needed to keep blinds looking new. Blinds may also be cleaned using a hand-held vacuum with a brush attachment using low suction. Stained wood blinds should be treated periodically with lemon-oil or other wood preservative to protect their finish

SHUTTERS

If the surfaces of the shutters become dirty, wash with a mild soap or detergent using a soft cloth. For difficult to remove dirt or stains, a water-based household cleaner can be used. Chlorine base cleaners or other cleaners containing organic solvents could affect the surface appearance and durability of the product.

Roller Shades

If the fabric of the roller shades becomes dirty, we recommend using a magic eraser.
