HONEYCOMB FEATURES

- Energy efficient with superior sound absorption and insulation from both warm and cold climates. Its cellular design traps air and noise from window to indoor space.
- No visible cords or cord holes, reduces light leaks, and adds to the decor.
- Uniform appearance to the outside of home with its neutral white backing. (Silver backing on a few select colors.)
- Adds elegance to the widest of windows, available in widths up to 96", and drops to lengths of 120"
- Easy to clean and maintain due to its 100% crisp polyester fabric that repels dust and dirt
- Durable headrail, smooth operation and crash-proof cord-lock.
- All Inside Mounted (IB) Shades will have a light gap on the left and right side.
- Easy to install hardware and brackets allows for effortless installations and easy removal for cleaning.
- Limited Lifetime Warranty as a commitment to your satisfaction.

AVAILABLE COLORS

* The same color in Room Darkening and Light Filtering are a different tone due to the darker center.

CHILD SAFETY INFORMATION

THE MANUFACTURER IS COMMITTED TO CHILD SAFETY REGARDING WINDOW COVERINGS

The Manufacturer has committed to join the Window Covering Manufacturers Association's new safety standards in the efforts to prevent accidents involving children and pets with accessible cords and by offering other product options that are child-safe custom window coverings.

"BEST FOR KIDS" CERTIFIED PROGRAM

Window Covering Manufacturers Association (WCMA) announced the industry's first third-party certification program designed to help consumers and retailers identify window covering products that are best suited for use in homes with young children.

To be part of the new Best for Kids program, products are submitted to a WCMA-recognized third party testing laboratory where the products are required to meet stringent criteria. Once the products meet these criteria, they are Certified Best For Kids. The Manufacturer has a number of products with this distinction.

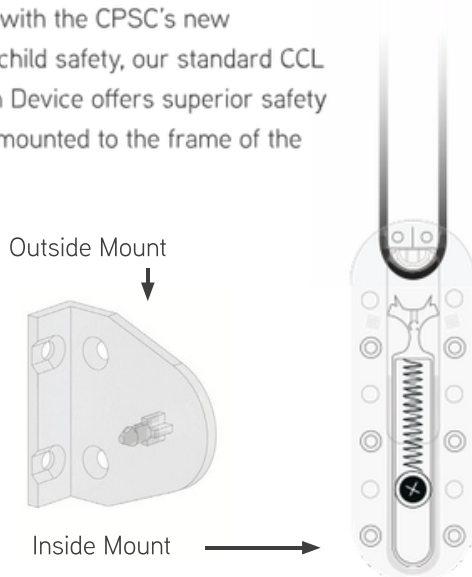

CHILD SAFETY IS SERIOUS BUSINESS

That's why the Manufacturer is removing all cords from products, in compliance with the Consumer Product Safety Commission's new guidelines for child-safe window treatments. A variety of control options, including the Safety Wand, traditional cordless control, and motorization, are available, providing the same convenience while making safety a top priority.

For more information on the CPSC's new guidelines and the Manufacturer's compliance with them, please visit: [federalregister.gov/documents/2022/11/28/2022-25041/safety-standard-for-operating-cords-on-custom-window-coverings](https://www.federalregister.gov/documents/2022/11/28/2022-25041/safety-standard-for-operating-cords-on-custom-window-coverings).

OUR SOLUTION

In compliance with the CPSC's new guidelines for child safety, our standard CCL Safety Tension Device offers superior safety which can be mounted to the frame of the window.

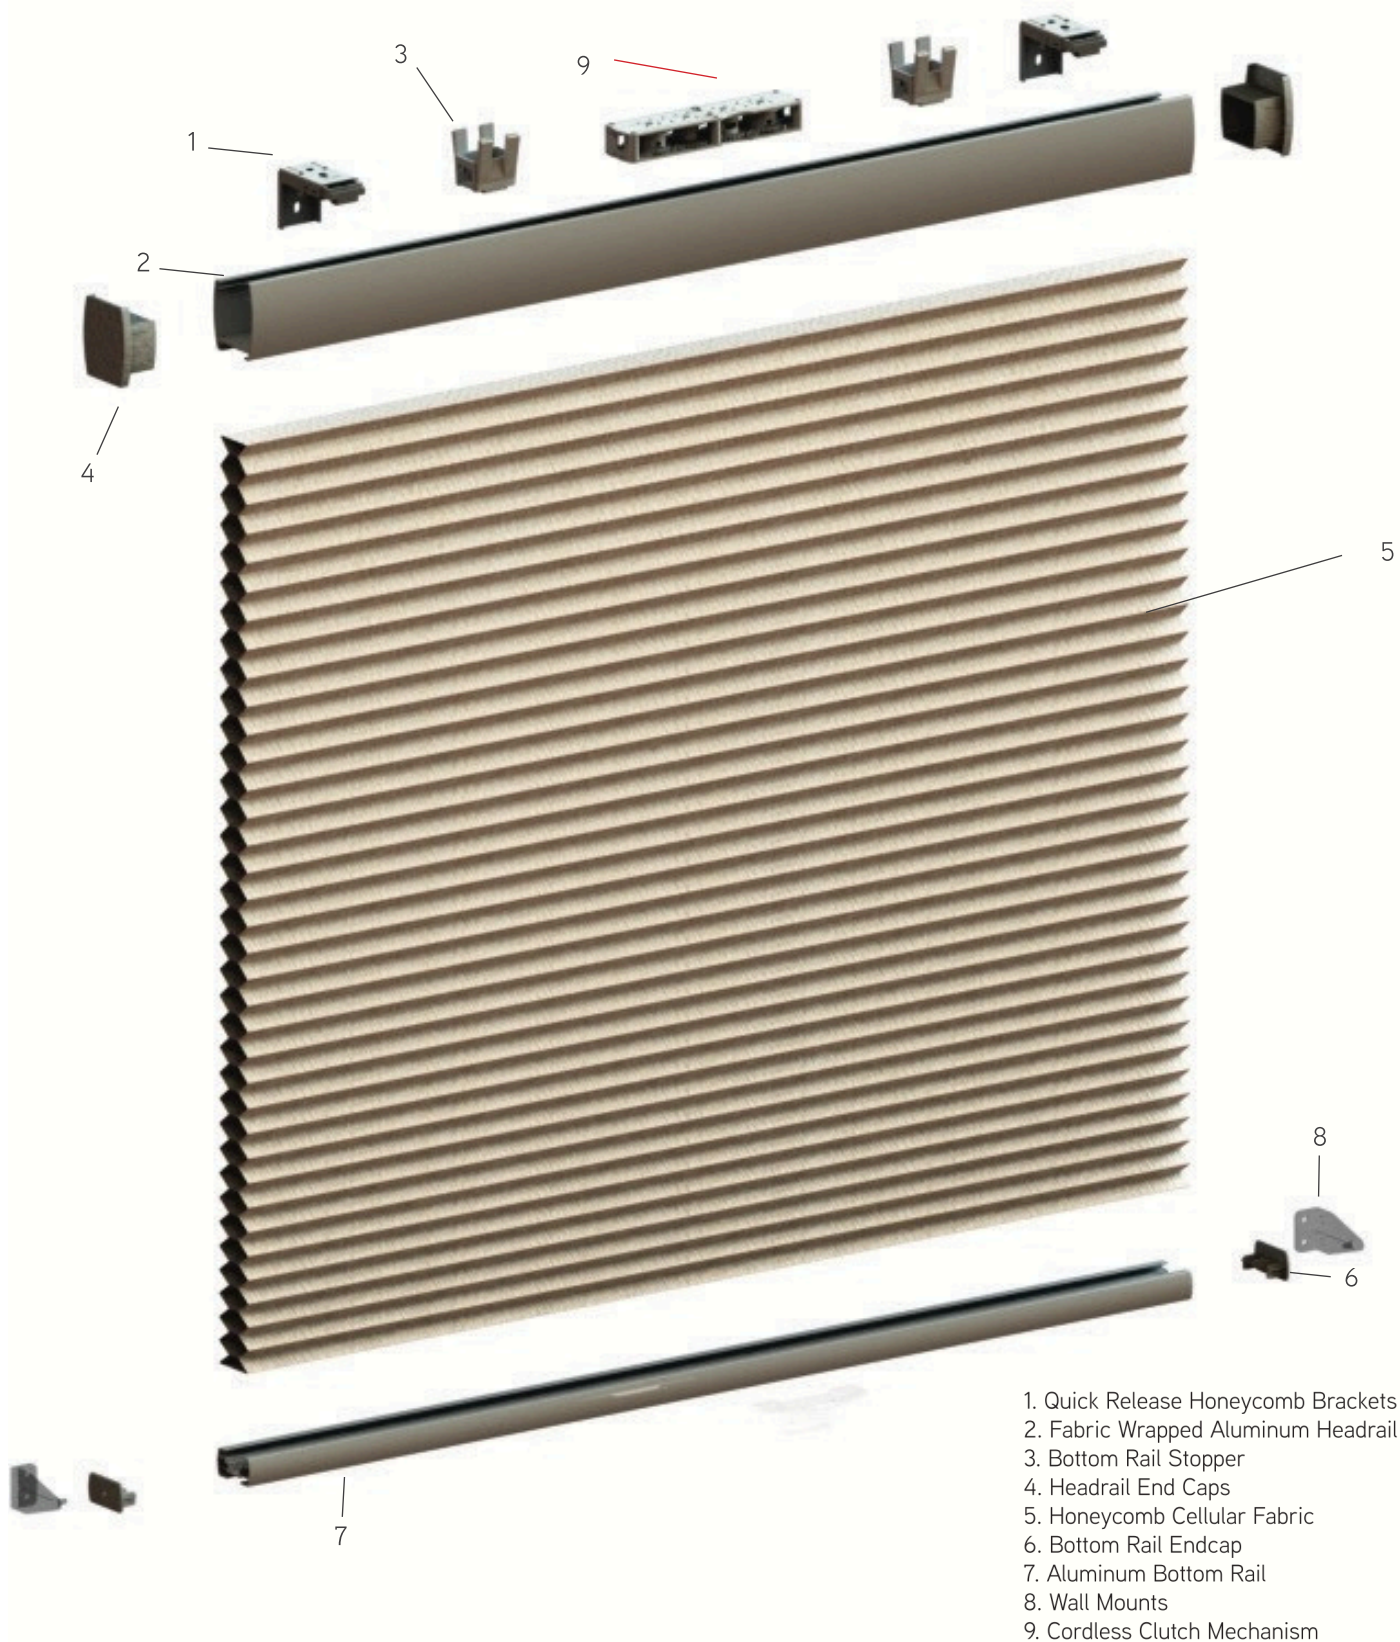

STANDARD SAFETY TENSION DEVICE

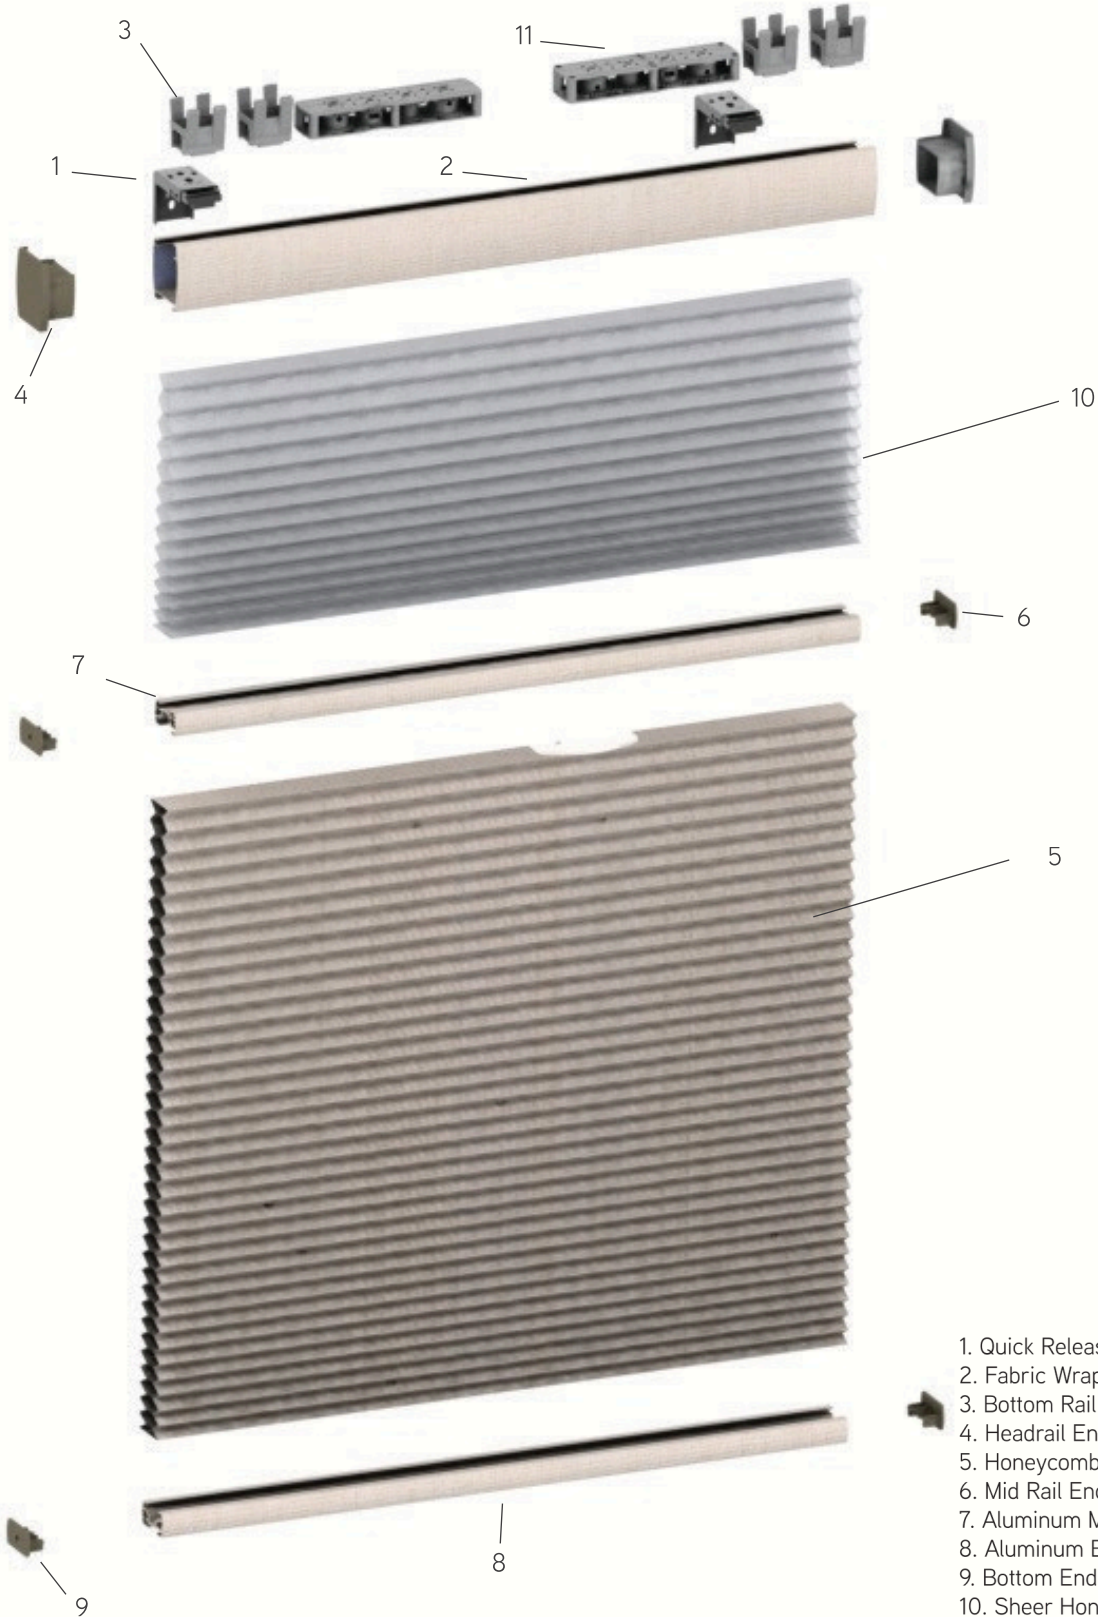

1. Quick Release Caslan Brackets
2. Fabric Wrapped Aluminum Headrail
3. Bottom Rail Stopper
4. Headrail End Caps
5. Caslan Front Fabric
6. Bottom Rail Endcap
7. Aluminum Bottom Rail
8. Cordless Clutch Mechanism
9. Shade Roller Tube
10. Continuous Cord Loop
11. Safety Tension Device
12. Wall Mounts

STANDARD CORDLESS LIFT

CORDLESS LIFT TOP-DOWN/BOTTOM UP OPTION

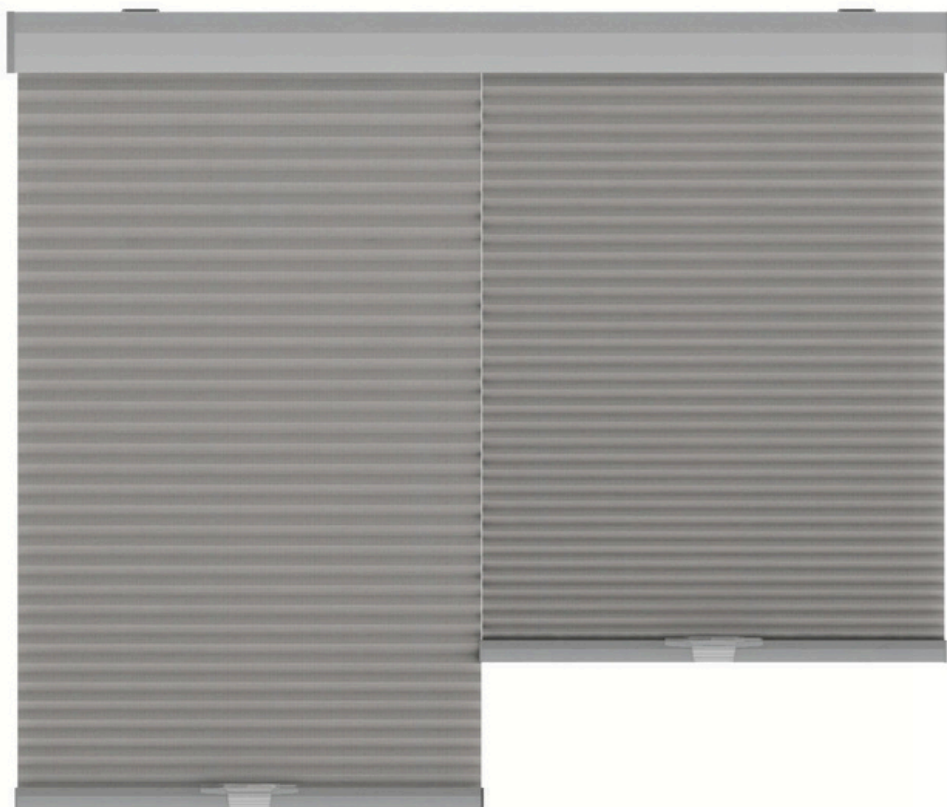

1. Quick Release Honeycomb Brackets
2. Fabric Wrapped Aluminum Headrail
3. Bottom Rail Stopper
4. Headrail End Caps
5. Honeycomb Cellular Fabric
6. Mid Rail Endcap
7. Aluminum Mid Rail
8. Aluminum Bottom Rail
9. Bottom End Caps
10. Sheer Honeycomb Fabric
11. Cordless Clutch Mechanism

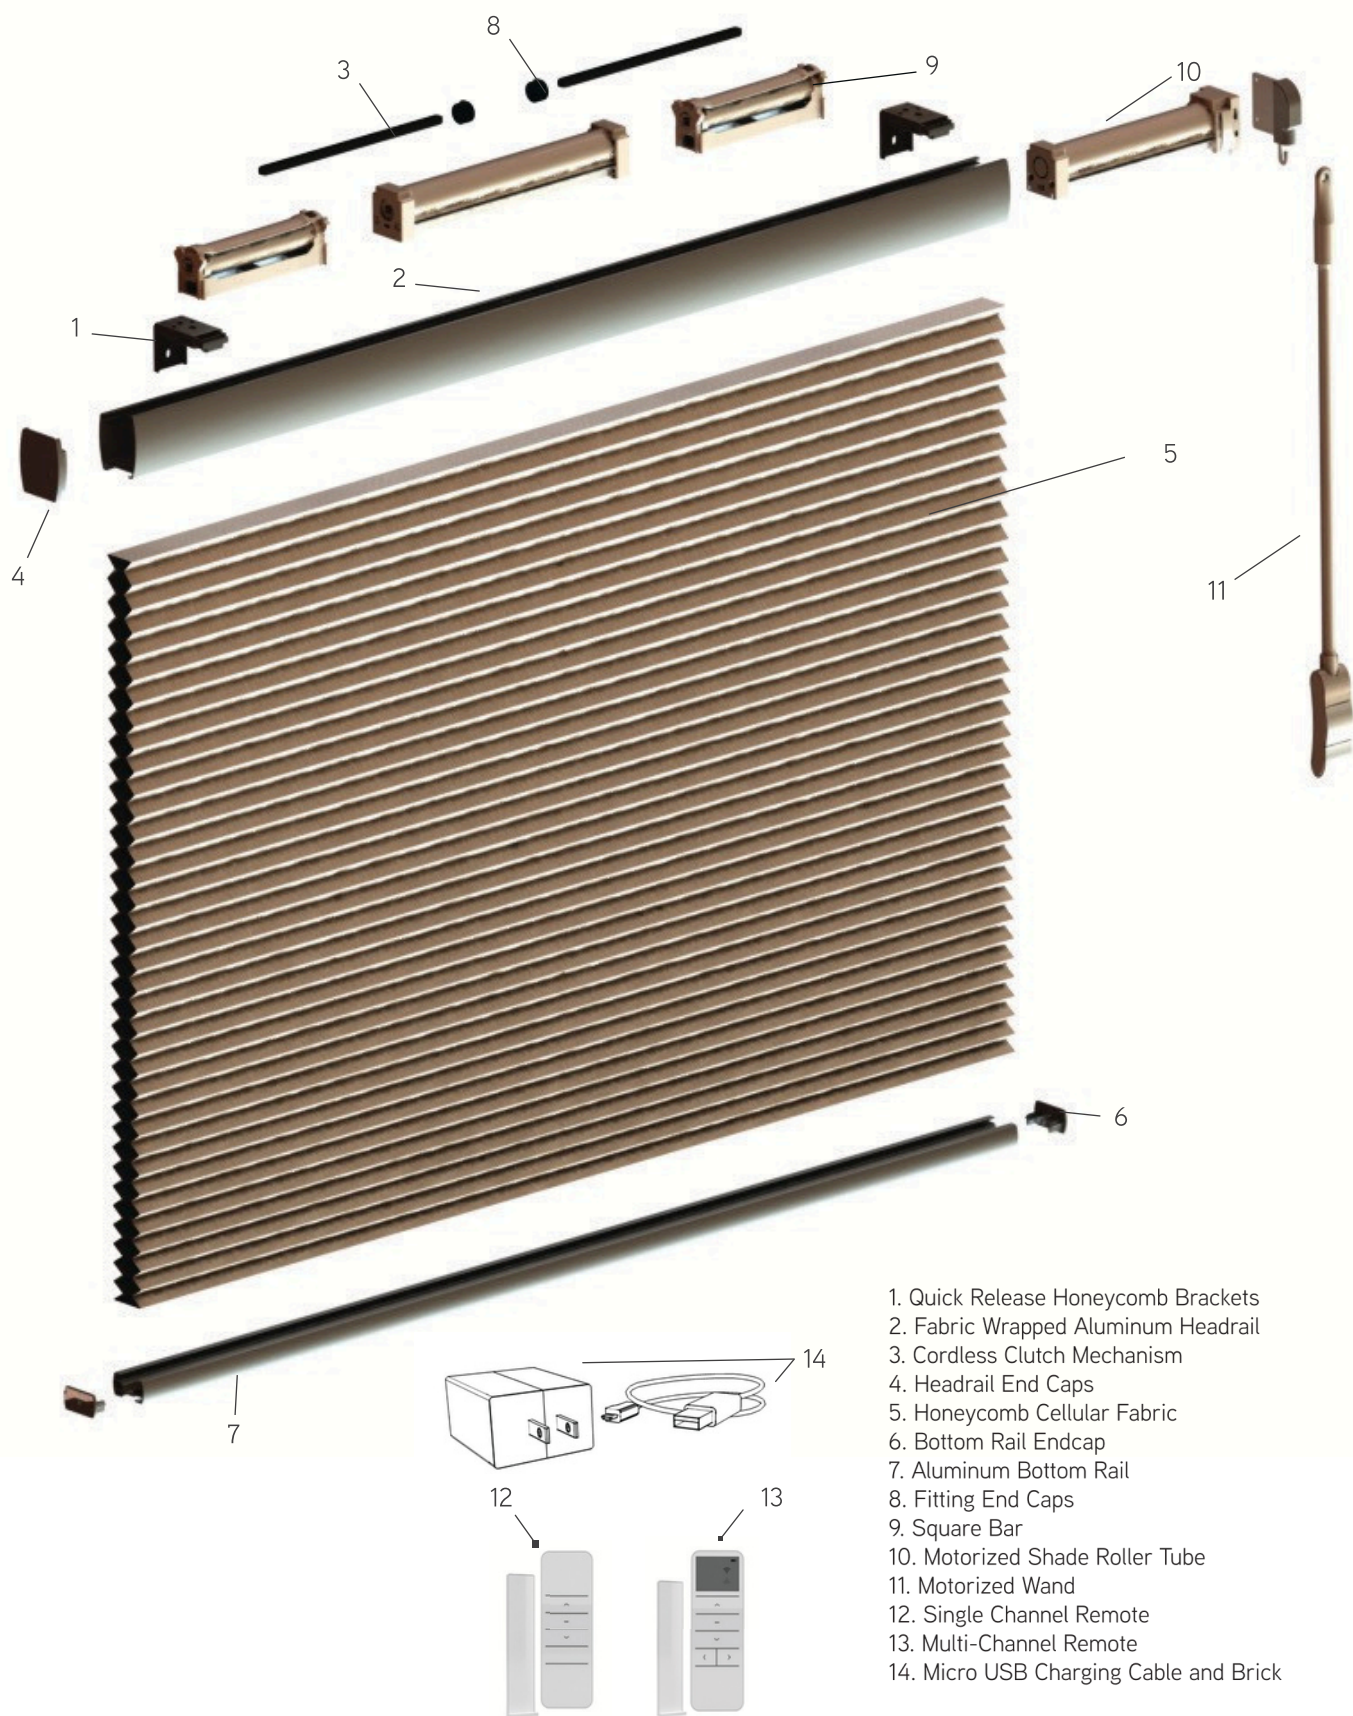

CORDLESS LIFT OPTIONS

CORDLESS TOP-DOWN/BOTTOM UP

MOTORIZED LIFT (OPTIONAL)

1. Quick Release Honeycomb Brackets
2. Fabric Wrapped Aluminum Headrail
3. Cordless Clutch Mechanism
4. Headrail End Caps
5. Honeycomb Cellular Fabric
6. Bottom Rail Endcap
7. Aluminum Bottom Rail
8. Fitting End Caps
9. Square Bar
10. Motorized Shade Roller Tube
11. Motorized Wand
12. Single Channel Remote
13. Multi-Channel Remote
14. Micro USB Charging Cable and Brick

MOTORIZED LIFT OPTION

**RECHARGEABLE WANDS
2 ON 1 HEADRAIL**

MOTORIZED WAND

TECHNOLOGY THAT ENHANCES THE LIVING SPACE

OPTION 1: Rechargeable Motor with Wand Control.

OPTION 2: Rechargeable Motor with Radio Remote and Wand Control.

- Easy Installation with No Hard Wiring.
- Long Last Lithium Ion Battery.
- Simple UP/DOWN/STOP Control Buttons for Lift and Tilt Options.
- Micro USB for Charging the Battery

WANDS		MSRP COST	
Replacement Wand		\$175

Safe Wand lengths are based on standards. You have the option of choosing a longer Safe Wand.

Production Lead Time is 6 Business Days

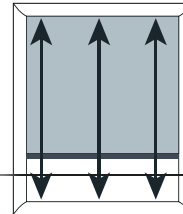

MEASURING

INSIDE MOUNT WIDTH (IB)

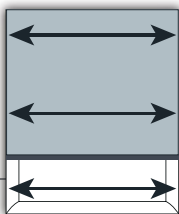

- Measure the exact width of the inside edge of the window frame. - Top, Middle, and Bottom.
- Make all measurements to the nearest 1/8th inch, round DOWN for width.
- Take the SMALLEST of the 3 measurements, this is the width that you will order.
- Production department will make the necessary deductions to ensure the shade fits inside your window.

INSIDE MOUNT HEIGHT (IB)

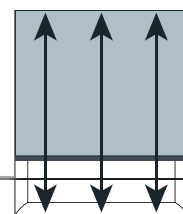

- Measure the exact height from the top inside edge down to the window sill in 3 places. - Left, Middle, Right
- Make all measurements to the nearest 1/8th inch, round UP for height.
- Take the LARGEST of the 3 measurements, this is the height that you will order.

NOTE: IB - THE FACTORY WILL DEDUCT 1/8-3/16" OFF THE TOTAL WIDTH.
OB - THE FACTORY WILL MAKE THE PRODUCT TO THE EXACT MEASUREMENTS PROVIDED.

OUTSIDE MOUNT WIDTH (OB)

- Measure the exact width of the window frame or how wide you would like the shade to be.
- Be sure to measure wide enough to cover the entire window (and trim if desired) to provide maximum light coverage.
- Example: If the window opening is 36" wide, it might be helpful to order 40" if the space allows. This will provide 2" coverage on each side of the window.
- No deductions/additions will be made to the width ordered.

OUTSIDE MOUNT HEIGHT (OB)

- Measure the height you would like the shade to be by measuring top to bottom.
- Be sure to measure high enough to cover the entire window (and trim if desired) to provide maximum light coverage.
- Example: If the window opening is 60" high, it might be helpful to order 64" if the space allows. This will provide 2" coverage on top and bottom of the window.
- No deductions/additions will be made to the height ordered.

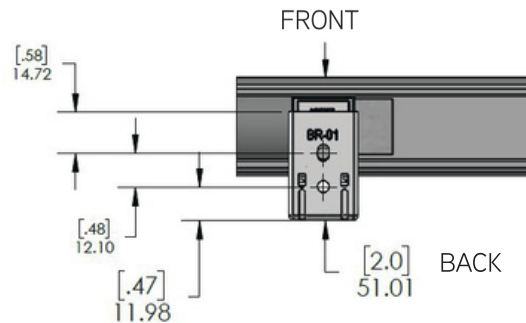

Shades can be +/- an additional 1/8" within factory standard post production.

HEADRAIL INFORMATION

CORDLESS, AND MOTORIZED HEADRAIL

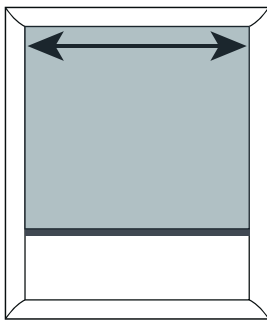

HEADRAIL WITH MOUNTING BRACKET

- Honeycomb comes with a standard aluminum headrail. *Unless otherwise specified.
- *Headrail will measure ordered width minus: $\frac{3}{8}"$
 - Can arrive +/- another $\frac{1}{8}"$ on top of that

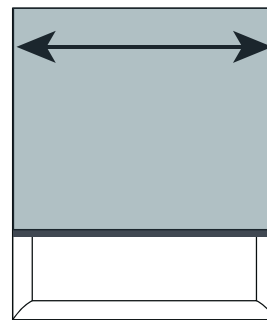

INSIDE MOUNT

Minimum depth for flush inside mount including installation brackets: $1\frac{1}{2}"$

OUTSIDE MOUNT

Minimum surface area required for mounting: $\frac{3}{4}"$

PRODUCT SPECIFICATIONS AND OPERATION

- **Standard Safety Tension Device** - Raise or Lower blind without hanging cords / ball chain by pulling down on each side of cord / ball chain.
- **Optional Safe Wand**- Lower or raise blind by holding down direction bottom and pulling down.
- **Cordless** - Pull plastic tab up and down to desired position.
- **Motorized Wand** - Top to Bottom / Bottom to Top:
Send the shade from the Open Position to the Closed Position (**press DOWN Button**)
Send the shade from the Closed Position to the Open Position (**press UP Button**)
Stop the shade at a specified height when in the Open or Closing Motion (**press STOP Button**)

HARDWARE

- **Installation Headrail Brackets**
Multi-faceted bracket system includes breakaway shims to assist in leveling. The bracket also includes easy release lever.
- **Spacer Blocks** - *Upon Request Only*
Spacer blocks project the shading 3/8" from the mounting surface. Use spacer blocks to obtain clearance when obstructions, such as window cranks or door handles, obstruct the movement of shading.
- **Hold Down Brackets** - *Upon Request Only*
Hold down brackets are made of clear plastic that fit into holes on the end-cap of the bottom rail. Hold downs are generally used to secure the base of the window shading to prevent swaying.

CLEANING AND CARE INFORMATION

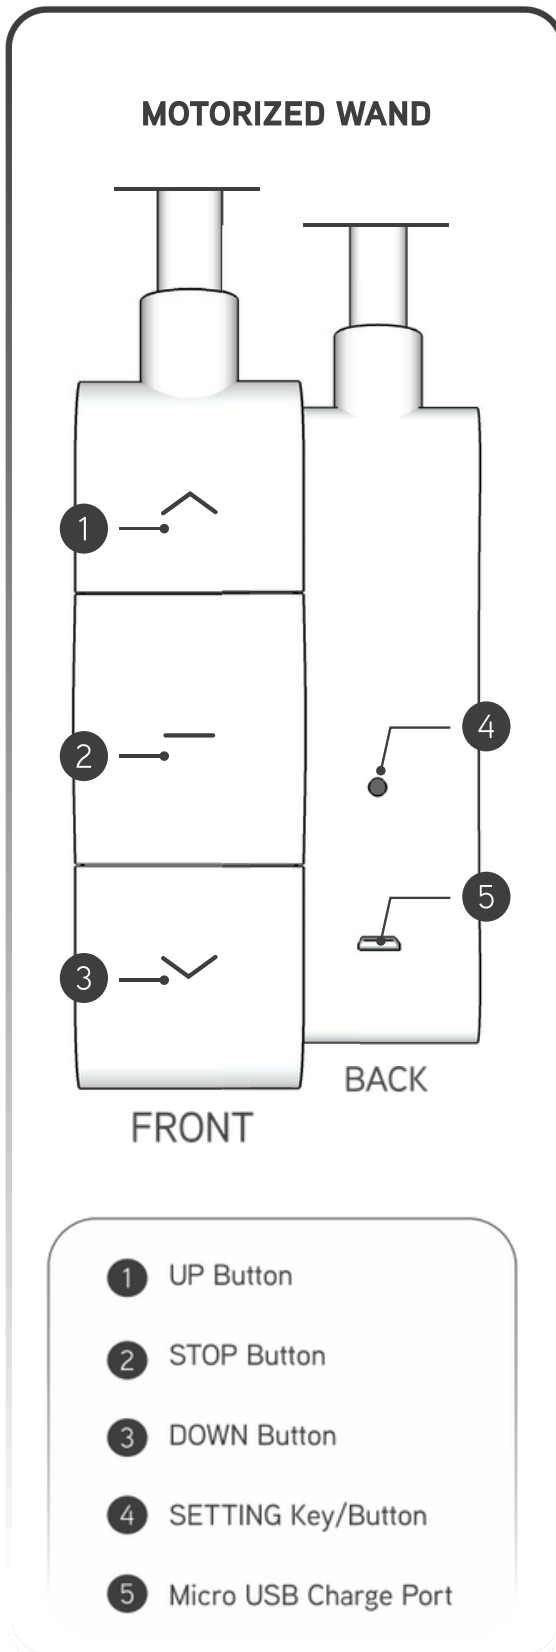

Honeycomb Shades are designed to be durable, easy cared for and easily cleaned. The non-woven fabrics are inherently anti-static and repel dust. Occasional feather dusting or vacuuming may be necessary to keep fabrics clean and bright.

Spills and stains can be lightly blotted with a cloth or damp sponge. More difficult stains may require soaking in water with mild soap and rub lightly. DO NOT submerge the Deluxe Cordless headrail in water. Lay flat to dry or place back in window and raise tightly to re-crisp pleats. Please test stronger cleaners on an unobtrusive portion of the shade.
